

Arc International and Cardinal International announce Warehouse and Decorating facility move to Millville, New Jersey.

May 13, 2009 Cardinal International, Wayne, New Jersey. Cardinal International, the wholly owned food service subsidiary of Arc International announced its plans to relocate warehouse and decorating facilities to larger space in the company owned Millville, NJ campus. "Combining our warehouse and decorating needs with Arc International North America provides more space for our growing business plans," stated Bryan O'Rourke, President of Cardinal International. "We are growing from 10 doors to 27, as well as relocating to a facility that is 10 times the size of our operation in Wayne."

Over the past several years, Arc International North America has significantly improved its business results through productivity and efficiency programs. The divestiture of Mikasa and the consolidation of the North American entities have contributed to the strengthening of the company. "We are committed to the Food Service Business", says O'Rourke. "It remains a very important focus for us. This decision will increase competitiveness and sustainability in our core business". The sales, marketing, finance, sourcing and customer service functions will continue to support the development of Cardinal's Food Service platform from Wayne, NJ.

The relocation of these facilities will take place in August 2009. "Our plans for the move have been carefully considered so as to avoid interruption in service to our customers," stated Richard Healey, Director of Operations and Supply Chain. "In accordance with Arc International group values, assistance will be offered to all effected employees throughout this transition".

The Cardinal International portfolio encompasses four brands, each designed to meet the high standards required by foodservice and hospitality professionals. For more information please contact Jeanette Brick, Sr. Director of Marketing: 973-686-2138. Visit us on line at: www.Cardinalglass.com.
